*Established Company Executive Will Now Also Oversee RE/MAX Commercial
in her Elevated Role*

DENVER – RE/MAX, LLC, one of the world's leading franchisors of real estate brokerage services, announced the promotion of Shawna Gilbert to Senior Vice President of Global Development.

Gilbert's strategic leadership and guidance supports RE/MAX affiliates located outside the U.S. and Canada as they build their businesses with RE/MAX. In her elevated role, Gilbert and her team will continue to deliver world-class service and leadership to RE/MAX global region owners. Additionally, due to its growth in global markets, Gilbert will also begin overseeing RE/MAX Commercial, the specialty brand with 11,000 brokers and a presence in more than 80 countries and territories. In 2021, brokers in the RE/MAX Commercial network closed over 50,000 commercial transactions and \$19 billion in commercial volume.

"There's a real sense of community among the nearly 60,000 global region owners, broker/owners and sales associates outside the U.S. and Canada. We see an incredible amount of collaboration and sharing in the group, and it elevates the performance of everyone involved. It's an amazing thing to be part of," Gilbert said. "The global RE/MAX network has grown into a massive presence, but it truly feels like we're just getting started – as though even bigger things are still to come. The team and I are committed to fostering that same environment with RE/MAX Commercial."

Gilbert will continue to report to Mike Reagan, Senior Vice President of Industry Relations and Global Growth & Development.

"Region owners across the globe have tremendous respect for Shawna and the entire Global Development team as they continue to deliver innovations, training and education to build sustainable regions around the world," said Reagan. "She is a tremendous asset to the RE/MAX leadership team, and we look forward to seeing what's to come."

Gilbert joined RE/MAX in 2010 as a Region Development Consultant and was promoted to Vice President, Global Development in 2017.
